GRAIN AND PROVISIONS.

CHICAGO, July 9.—To a great extent traders in corn assumed a waiting attitude today and avoided commitments until after the issuance of the government crop report this afternoon. The effect was bearish, as the market tended to sug, owing to lack of support. Selling was only of a scattered sort. Opening prices, which varied from unchanged figures to % lower, with August 153% to 154 and September 154% to 155, were followed by a material setback all around and then a moderate rally.

Oats eased down a little with corn. The fact, though, that country offerings were not large was a steadying factor. After opening unchanged to \(\frac{1}{2} \) lower with August 69\(\frac{1}{2} \) to 70 the market declined slightly further and recovered somewhat.

NEW YORK, July 9.—Reports of beneficial rains in the eastern belt and the official announcement of price fixing in cotton goods were considered responsible for a sharp break at the opening of the cotton market today. First prices were barely steady at an advance of 4 points on July, but generally 29 to 50 points lower, and July broke to 27.00 after the cail or 71 points net lower. Stop loss orders were uncovered by the decline in new crop months, with October selling off from 24.55 to 24.13, and December from 24.50 to 23.77, or 63 to 64 points net lower. COTTON MARKETS.
